Vincentre - Van Gogh museum Nuenen

The village of Nuenen is also known as Van Gogh Village, and rightly so. There isn't a place in the Netherlands where you can tread in the footsteps of this famous painter quite so literally. Here, stories about Van Gogh are still vividly told, his letters are available for reading, and there are no fewer than fourteen locations which have been immortalised by Van Gogh in a picture or a painting. Experiencing Van Gogh's life in the Netherlands so intensely is not possible anywhere else.

"The museum is a gem"

In the Vincentre museum you will hear all about Van Gogh and read his own stories about Nuenen, where he lived and worked from 1883 to 1885. Who was he, how did he live, who did he socialise with, and why was he so passionate about Nuenen? It will all become clear during an educational tour with an audio guide in no fewer than eight languages: Dutch, English, German, French, Spanish, Italian, Japanese and Chinese. In the village itself, no fewer than 23 locations have a direct link with Van Gogh. Together, they

form a walking and cycling route with interactive informational signs in Dutch and English.

From The Potato Eaters to The Starry Night
The Potato Eaters is based on a scene that Van Gogh saw at the house of a peasant family in Nuenen. It literally comes to life in theatre Het Klooster. The world famous designer Daan Roosegaarde designed, based on Van Gogh's The Starry Night, the now famous and unique Van Gogh-Roosegaarde cycle path, for which thousands of twinkling stones were incorporated in the asphalt. This cycle path, between Nuenen and the nearby city of Eindhoven, is part of the Van Gogh Cycle Route.

Heritage locations in Brabant

This cycle route connects the five Van Gogh heritage locations in Brabant, which of course include Nuenen. You won't get any closer to Van Gogh than this. Or, as one of our enthusiastic guests wrote about Nuenen: "The same view that Van Gogh had!"

Van Gogh House - Zundert

The Vincent van Gogh House: a living arts centre in the birthplace of Brabant's most famous artist ever, stands on the spot where Vincent van Gogh came into the world on 30 March 1853. The protestant Van Gogh spent his childhood years in catholic Zundert, not far from the Belgian border. A reticent and introvert boy, he was educated at home and it soon became clear that Vincent was 'different'. In the Vincent van GoghHuis you can experience how his time in Zundert moulded him and eventually enabled

him to mature to become a world-famous artist.

“A must see if you want to know Van Gogh”

Vincent’s life had a tough beginning. As the son of the minister Theodorus van Gogh, he quickly became an outsider in the catholic village. He could often be found in the large garden with his younger brother Theo. He would have a wonderful time outdoors, but could also take comfort in it. Maybe that’s one of the reasons why the countryside played such a large role in Van Gogh’s later work?

More than a museum

In the permanent presentation ‘Vincent van Gogh - the Roots of a Master’, Vincent will take you by the hand and lead you through a re-enactment of his youth and you can learn more about his struggle with faith. Changing exhibitions show the enormous influence of Van Gogh on 20th and 21st century artists, modern art enthusiasts are therefore very much catered for. In addition, the Van GoghHuis has an artist in residence scheme, where an artist can literally step, and live, in Van Gogh’s footsteps every day!

Heritage locations in Brabant

The Vincent van GoghHuis has its own VVV (Tourist Information) counter and is of course one of the five Van Gogh Heritage locations in Brabant. You can also get to the Van GoghHuis by bike via the Van Gogh Cycle Route that connects all the heritage locations in Brabant.

Van Gogh Church - Etten-Leur

Located in the centre of Etten-Leur, the Van Gogh Church offers a fascinating glimpse into what is probably the least known period in Vincent van Gogh's life, but certainly not the least important!

'The start of a career'

This is the church where Van Gogh's father was minister for seven years and where Van Gogh could regularly be found. Vincent van Gogh first registered as an artist in Etten in 1881. For nine months he lived and worked in the parsonage behind the Dutch Reformed Church. He also had his first drawing studio here.

'Precious memories'

In the Van Gogh Church you can see how Vincent wrestled with drawing but became better at it through sheer hard work. How he was infatuated by his cousin Kee Vos and the drama which then unfolded. How he had arguments with his father. How he left Etten at Christmas 1881 but never forgot it.

'Around the Van Gogh Church'

All these unusual stories are told in and around the Van Gogh Church. Nine colourful windows, multilingual information panels, showcases, animation, a film, a garden, an oversized portrait wall and audio columns take you back in time. The 'Van Gogh in virtual reality' is new: you will be immersed in an almost a real life encounter with Vincent van Gogh through a computer simulated environment.

The Van Gogh Shop has a large variety of

souvenirs. It is also the ideal starting point for a Van Gogh walk or a cycle trip through the surrounding area.

VAN GOGH

The worldfamous Vincent van Gogh was born and raised in North Brabant, in the south of the Netherlands. He created his first masterpiece *The Potato Eaters* in Brabant. It is where he made hundreds of sketches and drawings and where he painted most of his paintings. Come and walk in the footsteps of Van Gogh.

Five locations in Brabant each tell a story of Vincent's unique life and work. Discover the place where Vincent was born, where he received his first drawing lessons, where he began his career as an artist in his very first studio, where he created his first masterpiece or where ten of his original works are on display. Brabant counts 39 Van Gogh Monuments.

The Vincent van Gogh House: a living arts centre in the birthplace of Brabant's most famous artist ever, stands on the spot where Vincent van

Gogh came into the world on 30 March 1853. The protestant Van Gogh spent his childhood years in catholic Zundert, not far from the Belgian border. A reticent and introvert boy, he was educated at home and it soon became clear that Vincent was 'different'. In the Vincent van GoghHuis you can experience how his time in Zundert moulded him and eventually enabled him to mature to become a world-famous artist.

"A must see if you want to know Van Gogh"
Vincent's life had a tough beginning. As the son of the minister Theodorus van Gogh, he quickly

became an outsider in the catholic village. He could often be found in the large garden with his younger brother Theo. He would have a wonderful time outdoors, but could also take comfort in it. Maybe that's one of the reasons why the countryside played such a large role in Van Gogh's later work?

More than a museum

In the permanent presentation 'Vincent van Gogh - the Roots of a Master', Vincent will take you by the hand and lead you through a re-enactment of his youth and you can learn more about his struggle with faith. Changing exhibitions show the enormous influence of Van Gogh on 20th and 21st century artists, modern art enthusiasts are therefore very much catered for. In addition, the Van GoghHuis has an artist in residence scheme, where an artist can literally step, and live, in Van Gogh's footsteps every day!

Heritage locations in Brabant

The Vincent van GoghHuis has its own VVV (Tourist Information) counter and is of course one of the five Van Gogh Heritage locations in Brabant. You can also get to the Van GoghHuis by bike via the Van Gogh Cycle Route that connects all the heritage locations in Brabant.

Van Gogh Church

Located in the centre of Etten-Leur, the Van Gogh Church offers a fascinating glimpse into what is probably the least known period in Vincent van Gogh's life, but certainly not the least important!

'The start of a career'

This is the church where Van Gogh's father was minister for seven years and where Van Gogh could regularly be found. Vincent van Gogh first registered as an artist in Etten in 1881. For nine months he lived and worked in the parsonage

behind the Dutch Reformed Church. He also had his first drawing studio here.

'Precious memories'

In the Van Gogh Church you can see how Vincent wrestled with drawing but became better at it through sheer hard work. How he was infatuated by his cousin Kee Vos and the drama which then unfolded. How he had arguments with his father. How he left Etten at Christmas 1881 but never forgot it.

'Around the Van Gogh Church'

All these unusual stories are told in and around the Van Gogh Church. Nine colourful windows, multilingual information panels, showcases, animation, a film, a garden, an oversized portrait wall and audio columns take you back in time. The 'Van Gogh in virtual reality' is new: you will be immersed in an almost a real life encounter with Vincent van Gogh through a computer simulated environment.

Van Gogh Shop

The Van Gogh Shop has a large variety of souvenirs. It is also the ideal starting point for a Van Gogh walk or a cycle trip through the surrounding area.

Van Gogh heritage location

The Van Gogh Church and Van Gogh Shop (Markt 4) are within walking distance from the bus and railway stations. There is a multi-storey car park very close to the church. The locations are also on the Van Gogh Cycle Route that connects the five heritage locations in Brabant with each other.

Kasteel (castle) Heeswijk

Together with St. John's Cathedral in 's-Hertogenbosch, the Grote Kerk church in Breda and the Markiezenhof in Bergen op Zoom, Kasteel Heeswijk is one of the four official Top Monuments in Brabant. You can experience the chequered history of almost one thousand years of power, pride and culture of the elite of Brabant, all prominently located in the River Aa valley close to 's-Hertogenbosch. The castle is also the Nature Gateway to Brabant and is encircled by the Heeswijk Estate where you can spend some relaxing time among beautiful countryside. Come and enjoy this imposing monument weekly from Tuesday to Sunday.

"Wonderful castle"

People of all ages are welcome in the castle. There are special children's tours on Wednesday afternoons and children can learn all about the knights who were once here in an exciting

treasure hunt. That certainly made an impression on Susan: "I was allowed to put the helmet on my head to feel how heavy it was!" Coffee concerts are organised at the castle on Sundays from 12:00 to 13:00.

With a website and audio tour in English, and guided tours - which if reserved in advance are possible in English, German, French and Spanish - many overseas visitors make their way to Kasteel Heeswijk. To much satisfaction, according to this reaction: "This old and very well kept castle is definitely worth a visit if you are in the southern area of Holland. [...] The surrounding area is great for a stroll to enjoy the countryside. I would say this is a must see!"

Nature Gateway to Brabant

The Nature Gateway offers lovely walks from the castle through the woods and along the estate's avenues and fields, criss-crossed by the meandering River Aa. Sail in a whisper boat to the unique Kilsdonkse Molen watermill and windmill, and visit the Museumboerderij (Farming Museum) in the village of Heeswijk-Dinther, or sample an abbey beer in the centuries' old Berne Abbey, the longest established religious community in the Netherlands.

Many locals are contributing to this spectacle by becoming characters from the past, the militia, the artisans and traders. The smell of freshly caught fish, the smoke of smoked eel, the roasted suckling pig, the heat of the braziers, along with the street musicians and choirs will transport you to the 17th century.

Van Gogh's Inner Circle: Friends, Family, Models - Het Noordbrabants Museum

21st Sep 2019 to 12th Jan 2020 Vincent van Gogh was a passionate man. While his relationships were often strong and long-lasting, he was also

capable of alienating himself from others with his outspoken character. Through a selection of paintings, drawings, letters and documents, Van Gogh's Inner Circle: Friends, Family, Models offers a broad perspective on the individuals who

played an important role both in the life and work of Vincent van Gogh. This exhibition at Het Noordbrabants Museum breaks with the typical perception of the tormented, lonely artist.

HEUSDEN

VisitBrabant

The enchanting and historic fortified town of Heusden

This charming, medieval fortress town, Heusden, dates back to 1200, when an urban settlement was established beside the River Maas. A golden age dawned with the arrival of the fortifications: from the end of the 16th century the garrison town of Heusden was home to thousands of soldiers. Then, mostly as now, the town resembled the 17th century drawings made by the Amsterdam cartographer Joan Blaeu; a fortification surrounded by sturdy earthwork ramparts, bastions, ditches and ravelins. When the town was fully restored in the 1970's, Heusden was honoured with the highest European award, the 'Europa Nostra' prize for

restoration.

Experience the fortified city of Heusden!

Heusden is a 'hidden gem' not widely known to foreign visitors. During your visit, you will see many historical houses, the harbour and fish market square, the museum and gardens, the defensive walls and the three windmills on the riverside (which can also be visited by appointment). In the visitors centre where the Tourist Office of Heusden is located in the old town hall, there is also a scale model of the fortified town and a model of the old castle. Wander through its picturesque streets and alleyways and discover numerous buildings dating back centuries. This historic setting is home to galleries, speciality shops, culinary standard restaurants and pavement cafes. There are two well-equipped harbours for tourists arriving by water, and there are lovely views of the town, the river and the surrounding countryside, from the ramparts. A great destination for lovers of art, culture, history and good cuisine.

Discover the Loonse and Drunen Dunes

This beautiful National Park is located 8 km to the south of the fortress Heusden. The countryside is very varied, with high dunes formed by shifting sand, heathland, coniferous and deciduous woods, beautiful meadows and pools. This is a good location to discover nature, relax or be active outside, with hiking, cycling, mountain biking or horse riding. The choice is yours!

Midsummer Festival - Heusden

In June, from the 21st to 23rd 2019, Heusden celebrates midsummer by becoming a 17th century trading town on the former castle grounds.

Many locals are contributing to this spectacle by becoming characters from the past, the militia, the artisans and traders. The smell of freshly caught fish, the smoke of smoked eel, the roasted suckling pig, the heat of the braziers, along with the street musicians and choirs will transport you to the 17th century.

Van Gogh's Inner Circle: Friends, Family, Models

21st Sep 2019 to 12th Jan 2020 Vincent van Gogh was a passionate man. While his relationships were often strong and long-lasting, he was also capable of alienating himself from others with his outspoken character. Through a selection of paintings, drawings, letters and documents, Van Gogh's Inner Circle: Friends, Family, Models offers a broad perspective on the individuals who played an important role both in the life and work of Vincent van Gogh. This exhibition at Het Noordbrabants Museum breaks with the typical perception of the tormented, lonely artist.

Not only has Beekse Bergen been selected as the Best Wildlife Animal Park in the Netherlands and Belgium, but in addition to almost 1500 wild animals in the safari park, Beekse Bergen also has a holiday park and a water playground. Stay in African-style accommodation in the holiday park and use the FunCard to gain admission not only to Beekse Bergen Safari Park and Beekse Bergen Speelland (Play Land), but also to a number of other natural and sportive attractions in Brabant. Surround yourself by lions, elephants, penguins, hippos, crocodiles and rhinos, and imagine you are in the African savanna. You can explore this extensive area by bus, boat, on foot or in your own car: you can in other words drive right among the animals. If you want more information, one of the Rangers will happily explain things.
