### THE CITY

Ängelholms Näringsliv

In this perfect location close to the sea, forests and hills, enjoying life is easy, every day! The river Rönne runs through the town centre and enters the sea in Skälderviken, adding to the pleasant atmosphere. Six kilometres of sandy beaches, the Kronoskogen forest and the picturesque town centre are other appealing features of Ängelholm. The town was founded by Danish king Christian II in 1516 and started attracting large numbers of tourists at the beginning of the 20th century, when one of Sweden's first urban summer residential areas - Ängelholms Havsbad - was planned and built here. Ängelholm is charming both to visit and

live in and it has its share of celebrities, like singer Jill Johnsson, former NHL player Kenny Jönsson and food creator Rickard Nilsson.

## DO & SEE

Lena Evertsson/Ängelholms Näringsliv AB

A paradise for active people, Ängelholm's coastline, forests and country roads are all made for hiking or riding your bike along them. Go on a day trip or stay overnight - you can find out about our different package deals and buy a map at the Tourist Centre. One popular bike route is 16 km long Lergöksrundan, which passes through the city and forest and follows the coast.

### Scenic hiking trails

On the Hallandsåsen ridge, above the Västersjön lake, several hiking trails will take you through unspoilt countryside and past historical remains. Why not pack something to cook over an open fire along the way? Skåneleden, a system of hiking trails all over Skåne, also passes through Ängelholm. The Ängelholm - Vejbystrand leg of the hike is accompanied by sandy dunes, rocky stretches of coast and small marinas. A campsite with a permanent shelter can be found north of Vejbystrand.

Relaxing swimming in the sea or in a cool lake  
Towards the end of the 19th century, Ängelholm became a famous spa and bath resort. Along the vast beach, there is plenty of room for everyone

to find their favourite spot. Ängelholms Havsbud in the innermost part of the Skälderviken bay is a six km long beach suitable for swimming, with a unique landscape of tall sand dunes. In Sibirien, dogs and horses are allowed in the water. Dogs are also allowed on the smaller beach north of the harbour inlet. One stretch of the beach has been set aside for naturists. The popular village of Skälderviken has a small marina with a pub and a marine store. Vejbystrand and Magnarp have their own small harbours. Västersjön is a nice lake for swimming, particularly at Ugglehult, where you will find jetties and a rowing boat for wheelchair users.

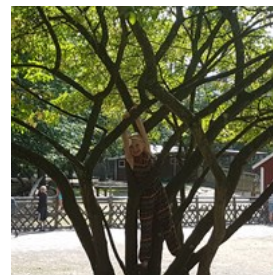

### Exciting canoeing

Enjoy an unforgettable visit to the river Rönne. Bring along your family or friends on an exciting canoeing trip along the river which runs through Ängelholm and enters the sea in Skälderviken. Set your own pace. Should you wish to camp along the way, there is a great campsite with a shelter, public toilet and freshwater at Höja.

### An angler's paradise

Ängelholm is a haven for fishing enthusiasts. The river Rönne is one of four rivers in Skåne with salmon, but perch, roach, pike and sea trout will also bite. The river Vege å and the Västersjön lake are also popular with anglers. You will need a fishing permit.

### Klitterhus

With its traditions beginning early in the 20th century, our historic seaside hotel is right on the beach in the beautiful bay of Skälderviken. For

many years it has been a natural meeting place for the residents of Ängelholm who enjoy swimming, a walk on the sand, and the chance to have a drink and a good meal. Because the hotel setting is as close to the beach you can come without getting wet, the feeling is really “living by the sea” and is most keenly felt and heard by the sound of the waves which are on the doorstep. This has always been known to bring a

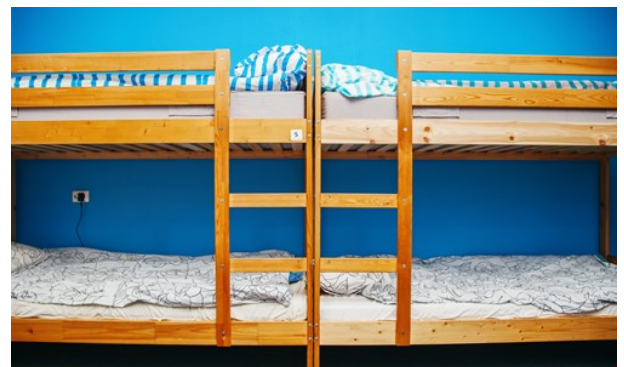

peacefulness and calmness which sharpens the mind and senses.

One of the benefits that Klitterhus has by not being a large hotel is its cosiness. With just 14 double rooms, the atmosphere is very warm and personal.

All rooms are restored and redecorated in light, modern colours, although the original styling and feel is always kept in mind and can be found in the details. Most of our rooms face the sea with a breath-taking view overlooking Kullaberg. Why not try a couple of relaxing quiet nights in our comfortable beds, where the only sound you hear, is the sea lapping at the sand outside your window?
