Taiwan and the Kingdom of Brunei can visit the United States for up to 90 days without applying for a visa (as well as citizens of Andorra, Lichtenstein, Monaco and San Marino). Citizens of these countries must obtain an ESTA (Electronic System for Travel Authorization) before traveling. All other travelers must obtain a visa before visiting the United States. International travelers need a passport that is valid for at least 3 months after the end of their intended trip in order to enter the country.

### Best Time to Visit

Key West weather gives its winter season a warm temperature and a low chance of rain, which is why it is also the busiest period in terms of crowds

and the priciest with regard to accommodation. Summer and fall on the other hand are mostly avoided by tourists because of the frequent rain, high humidity and the fact that they coincide with the hurricane season, but they also see the best bargains for hotel prices and the best time to visit the local beaches.

A middle ground is represented by the months that go from March to May, since they feature good price deals on accommodation and local attractions as well as stable weather conditions.
