## THE ISLANDS

Romolo Tavani/Shutterstock.com

The Maldives make up a total of twenty six atolls, with many (otherwise uninhabited) islands being occupied by a single resort hotel. Vacationers usually spend much of their time on hotel premises, so picking the right island is a matter of relative importance. Staying at upscale resorts, however, isn't the only option available to visitors. Since recently, the Maldives have appeared on the radars of budget travelers - a few inns and guest houses have opened up on the larger, inhabited islands (Guraidhoo and Maafushi, to name a couple). This has given start to breaking down the age-old conception of Maldives as an exclusive, luxury destination solely for honeymooners and the world's rich and famous.

Global warming, and - consequently - rising sea levels have brought about alarming news and heated discussions about the future of these pristine islands, and whether the nation is doomed to go underwater in a few decades' time. Do try and take advantage of the islands' beauty and marine riches now, while tourism in the area is booming like never before, and the Maldives are becoming economically accessible to an an increasing number of travelers.

## DO & SEE

toey19863/Shutterstock.com

Travelers flock to the Maldives in search of pristine waters and crisp white sands, and most activities available revolve in and around the two. At sea, diving and snorkeling top the list of sought-after pastimes - marine life here is incredibly vibrant, and the colorful reefs and corals, as well as unique diving spots (such as the Banana Reef or the remains of a ship sunken in the 20th century) continuously attract marine explorers to the area. On land, exclusive golf courses, beaches, high-end restaurants and spas provide plenty for water-shy guests to indulge in, while the capital city of Male holds a variety of shopping opportunities and a few cultural haunts.

### Scuba Diving

Crystal-blue waters surrounding the Maldives harbor extraordinary marine wildlife and underwater seascapes dominated by vibrant coral gardens, reefs and caves; one would be hard-pressed to find better diving spots anywhere else in the world.

Countless Dive Centers scattered around the islands provide the necessary training and gear. Qualified instructors follow divers every step of the way to ensure a safe and enjoyable

experience.

### Seaplane Flights

## DINING

KKulikov/Shutterstock.com

Seafood (tuna fish in particular), coconut and rice constitute the bulk of Maldivian dishes, many of which are heavily influenced by Indian and Sri Lankan flavors. Much like Indian cuisine, Maldivian food may prove a bit too fiery for some, so make sure to request the desired level of spiciness when you order.

As a rule, island resorts house a number of cafes and eateries, offering guests plenty of dining options to choose from. To explore further possibilities, travelers may opt for a boat ride (or even a short seaplane flight) to a nearby island (the Niyama Per Aquum Resort, with its themed restaurants, could be an interesting choice), or plan for a meal out at one of the unique Maldivian underwater restaurants.

## SHOPPING

[Rawpixel.com/Shutterstock.com](http://Rawpixel.com/Shutterstock.com)

The Maldives do not offer much in the way of large malls or shopping centers; however, visiting some of the local inhabited islands may prove useful for souvenirs or necessities (resort-owned shops tend to overcharge customers, with prices being up to 80% lower elsewhere). For substantial shopping opportunities, make a day for Male and explore Majeedhee Magu and Orchid Magu - the two streets a savvy shopper wouldn't miss for the world in the capital city.

### Inhabited Islands

While resort islands might not offer much in the way of shopping, a visit to almost any inhabited island nearby (Maafushi, Dhigurah, Ukulhas or Thoddoo, to name a few) is great for stocking up on local crafts, souvenirs, authentic artwork and necessities.

located on Hulhule island and is the main point of entry to most Maldives' visitors. Most travelers will switch to connecting flights to reach further locations in the Maldives or use private transfer services.

Speedboat and seaplane (Trans Maldivian Airways, Maldivian Air Taxi) transfers are available from the airport to nearby and far-lying

islands and resorts. The airport ferry connects the airport to Male City. The ferry runs at regular intervals from early in the morning till late into the night.
