Mykonos is an eclectic place - pristine beaches, elegant boutiques, fine dining, and rowdy bars are all packed onto one tiny piece of land, a mere 15km long at its widest point. ## THE ISLAND

Leanne Vorrias/Shutterstock.com

The tiny Cycladic island of Mykonos sprung to blossom as a tourist destination in the 60s and 70s, when it was first discovered by global glitterati and became featured in magazines as the new hot place to be for the "it" crowd. The island today has kept little of its past exclusivity (although celebrities do make appearances at some of its fashion boutiques every now and then), and welcomes diverse crowds every summer season. July and August are the busiest, with late spring and early fall allowing visitors to discover a quieter, more tranquil side to the island.

During high season, avoid the narrow streets of Mykonos Town (also referred to as "Hora", or "Chora") during daytime to escape cruise ship crowds and venture out to one of the island's many beaches, or try scuba diving under careful supervision of professionals from the island's many dive centres.

The island, along with its tiny neighbour of Delos, featured prominently in Greek mythology and was first settled in 11th century BC. Excursions into the past may be made via the island's several tiny museums and the well-maintained Archaeological Site of Delos.

## DO & SEE

Avatar\_023/Shutterstock.com

The entire island of Mykonos is only 15km at its widest point - a small but intimate place, where it's possible to see everything in a relatively short time period.

Start off by strolling through Little Venice, the waterfront bar and restaurant strip of Mykonos Town, and make your way up into the maze of narrow streets dotted with shops and eateries. Take a photo against the backdrop of the island's iconic windmills, and make the most of its many splendid beaches.

### Little Venice

This scenic neighbourhood is a delight both day and night: stroll along the waterfront and get a feel for the town while taking in the distinct local architecture, sit down for a seafood lunch or dinner with a view (over the blue waters and iconic hilltop windmills), or explore the bar scene after sundown.

For a more relaxed, quieter experience head to Elia, Platis Gialos, Ornos, Panormos, Paranga or Agios Sostis Beaches - the latter is a true hidden gem tucked away far from the frenzied crowd in the island's north.

## DINING

Pawel Kazmierczak/Shutterstock.com

The sheer number of eateries for an island as small as Mykonos is dazzling, with the majority of restaurants and tavernas concentrated in Mykonos Town and along the waterfront of Little Venice. Mykonian cuisine is defined by its pork and fried fish dishes (red mullet and skate are most common), octopus meze (small tapas-style plates), and the use of goat milk and onions in cooking. The Greek classics (such as moussaka, for example) are readily available on most menus.

## BARS & NIGHTLIFE

EGUCHI NAOHIRO/Shutterstock.com

The party never dies in Mykonos, where day-time beach entertainment often precedes the "classic" nightclubbing experience. Some of the loudest, rowdiest beach venues are to be found at Psarrou Beach (popular with Greeks), and the Paradise/Super Paradise Beaches. In Mykonos Town, pre-sunset pastimes are much more tame, with relaxing waterfront bars of Little Venice getting packed with patrons savouring slightly overpriced cocktails in the evenings. At night, the island's many clubs open their doors to those still ready to paint the town red.

### Little Venice

This scenic neighbourhood is a delight both day and night - stroll along the waterfront and get a feel for the town while taking

## SHOPPING

### Mykonos Island National Airport

Mykonos has its own airport, direct flights are available from multiple European destinations. To travel the 4km to town, use one of the taxis right outside the airport terminal, or a pre-arranged transfer (some hotels pick up guests directly at the airport). Bus service to the city (southern bus station) is also available, but is infrequent and runs on no definitive schedule.

### Passport/Visa

Greece can be visited visa-free for up to 90 days by citizens of most European countries, Australia, New Zealand, Japan, South Korea, Taiwan, Malaysia, Israel, UAE and most countries in America. If you are unsure whether or not you need to apply for a visa, we recommend contacting the embassy or consulate in your country. International (non-Schengen) travelers need a passport that is valid for at least 3 months after the end of their intended trip in order to enter the Schengen zone. Citizens of Schengen countries can travel without a passport, but must have a valid ID with them during their stay.

### Best Time to Visit

The best time to visit Mykonos is in September and October. During these two months the weather is still warm and water temperature is still perfect for swimming. July and August are known as the peak season, when every corner of the island is permeated with vacationers, so if you are looking for a tranquil vacation it's best to avoid these two months.

## Ferry

Most ferries run between the months of April and October. Direct connections to Mykonos via high speed ferries and boats are available from

Piraeus and Rafina (check in advance whether your ferry arrives at the old or new port, this may vary by company). Ferries also run to and from other nearby islands in the Cyclades.

Photo: M-O Vector / Shutterstock.com

## Public Transport

There are two bus stations at the opposite ends of Mykonos Town (these are a 20 minute walk away from one another). Use the main

station (Fabrica) to catch a bus to Paraga, Platys Gialos, Paradise, Agios Ioannis and Ornos. The northern station serves Elia, Ano Mera, Panormos and Kalafatis. Bus frequencies may vary depending on the time of year (more buses run during high season); intervals are usually somewhere between 30 min and an hour. Tickets may be purchased from the driver directly or in advance at ticket machines and tourist shops.

Small fishing boats are an alternative means of transport - these circulate between the main beaches of the island.

## Taxi

Taxis in Mykonos are in high demand, and getting one in high season might require some patience. Taxis can be hired in Manto Square (also

referred to as the Taxi Square). There are usually fixed prices displayed inside the cabs for main destinations around the island, meters are normally not used. Ordering a taxi often comes at an extra charge.
